Royal - Lions Rabbitry

Need cute baby bunnies for Easter?

I am running a small pedigree rabbitry in the areas of Manitowoc, Green Bay, Appleton, Sheboygan and Chilton. I have sold over 65 bunnies in the past year to 4-H children for show and pets.

I raise Netherland Dwarf, Lion-heads, American Fuzzy Lop (AFL), Holland Lops and just starting into the very cute Lion-Lops that have a mane like a lion and long floppy ears like a Holland. All bunnies I breed are between two and four pounds in weight. They are friendly and healthy. Prices range from \$10 - \$40. They make great pets for all ages. Bunnies are the third main family pet below cats and dogs. If you are interested or would like more information visit my website: <http://royallionsrabbitry.webs.com> or call Marilyn Nate, 920-754-4640.

Fish Fry starting up again!

The Reedsville Sportsman Club will be holding their Friday fish fry for 8weeks starting February 14th to March 25th. Serving perch plates and chicken strips from 4pm - 8:30pm. Carry outs available and we will deliver to The Manor. Thank you for your past support and visit us again this year!

Reedsville Historical Celebration

Everyone is invited to a BIG celebration on Saturday, March 19th, Saint Joseph's Day at the St. Mary's Historical Building.

The organization along with the Reedsville community will unveil the stain-glass St. Joseph window in the building that was partially removed to Holy Family Church in Brillion.

The stain glass window will be duplicated in the same real glass as the original. The event will start at 10:00 am. with a bake sale, brat/burger fry and Bohemian desserts & coffee in the dining hall. The program will begin at 1:45 pm. in the upper level of the building.

Sister Judy Miller, a Sister of St. Joseph from St. Norbert's College and St. Norbert's Abbey, Green Bay, will conduct a program depicting St. Joseph and how he can play a part in our life. It should be an enjoyable event. Wear your red, the favorite color of Bohemians for the day.
Call 754-4370 for more information.

Sunrise Horse Farm

In January at our Winter Family Gathering the Sunrise Kids made Valentine's for the soldiers in Iraq. We would like to thank Commander Karl Bubolz and the Reedsville Amvets for sending the Valentine's to a unit in Iraq.

Last month we wrote about Sponsoring A Horse and for the next 7 months we will have you meet the horses at Sunrise.

This month we will introduce Jubilee, a 39 year-old Morgan gelding...yes, he is 39!! Jubilee was donated by Jeanne & Brian Glass from the Black Creek area. In talking to Jeanne, she gave us some insights into Jubilee's life before he came to Sunrise. She bought him when he was 10 from a farm that had other horses. And he was always the "King" with the horses bowing to him. He was naughty at points such as throwing someone off. Jeanne said she bought and sold him four different times, and whenever she was troubled she would go to talk to him.

The Sunrise Kids love him and when they brush him, he will move himself into the sweet spot. Whenever he hears anyone in the barn, he will kick the door because he wants to get in and eat his grain...that brings laughter from anyone that is here. Here are some of the comments about Jubilee from the children/teens that come to Sunrise:

He is an old "teddy bear" that one will forget once they get to know him! Jubilee seems to touch the hearts of everyone he meets. He is living the rest of his comfortable life at Sunrise Horse Farm. Jubilee seems to just love the people who come to see him, but he especially loves the people who stick around for a while. This horse seems to read your mind, and he is always in a good mood. I fell in love with this big furry ball. Jubilee is the kind of horse you want to have around. Anyone interested in sponsoring Jubilee with a monthly donation, please contact us. We are still in need of volunteers to help with students, feeding the horses or to do various barn chores.

Adults need vaccines, too!

Throughout the lifespan, adults need immunizations to protect against flu, tetanus, chickenpox, pertussis, shingles, pneumonia, HPV and other diseases.

For example, Pertussis (whooping cough) is making a big comeback since reaching an all-time low in the 1970s. The Centers for Disease Control (CDC) recommends that all adults get a pertussis booster shot to strengthen their immunity.

If you receive a regular tetanus-diphtheria (Td) booster every 10 years as recommended, you won't need an extra shot for pertussis. Vaccine makers have added a pertussis component to that booster (Tdap vaccine).

The measles, mumps, rubella (MMR) vaccine is important, too. Check with your health care provider to see if you need a MMR booster.

Here are other vaccines adults may need:

- Pneumococcal (pneumonia) vaccine is recommended by the CDC for adults 65 years and older.
 - HPV (human papillomavirus) vaccine – the CDC recommends three doses for females through age 26.
 - Varicella (chickenpox) vaccine – Adults without evidence of immunity to varicella should receive two doses of single-antigen varicella vaccine, if not previously vaccinated.
 - The same virus that causes chickenpox causes shingles. A shingles vaccine (Zostavax) can help protect those age 60 and older.
- And finally, adults who wish to avoid the flu and complications should get an annual flu vaccination. In general, anyone six months or older can benefit from the protection offered by a flu vaccine.

DON'T CATCH A COLD, CATCH HEALTH!

Playing "catch" with a ball is fun. But, it's no fun to catch a cold, flu or other infection. Since Louis Pasteur advanced the germ theory of disease, people have been looking for more effective ways to avoid catching an infection by killing microbes. As a result, people spend more time and effort killing microbes than they do trying to "catch" good health by keeping their immune system strong. The overuse of antibiotics in treating contagious disease has resulted in a weakening of people's immune systems. Antibiotics kill the friendly microbes in our intestines known as probiotics. These probiotic microbes are a key component of our immune system because they inhibit the growth of yeast and harmful bacteria. When our intestinal probiotics are destroyed, we can get an overgrowth of yeast in our system that makes us more susceptible to infections.

Fortunately, there is another way to help us stay healthy and that is by using herbs and nutrients that can build up our immune system. Nature's Sunshine has several products such as Probiotic Eleven which can provide an extra boost to your immune system, Ultimate Echinacea is commonly used to both prevent and treat the common cold, Astragalus binds to viruses, weakening their defenses and allowing the immune response to take over, Elderberry inhibits viral infections, Vitamin D3 is necessary for immunity, Vitamin C helps prevent the common cold.

The Reedsville Lions are Looking for Campers

The Lions of the state of Wisconsin created the Wisconsin Lions Camp in 1956 and also created the Wisconsin Lions Foundation, Inc. at the same time to administer the Camp program. The Wisconsin Lions Camp is dedicated to providing a quality camping experience free-of-charge to eligible Wisconsin residents who are Blind or visually impaired, Deaf or Hard of Hearing, youth with mild cognitive disabilities and youth with diabetes. The programs of the Wisconsin Lions Camp have been developed to best meet the needs and interests of the special campers it serves. For that reason, separate camping sessions are set aside for children with visual, hearing or mild cognitive disabilities and children with type I and type II diabetes. Each program is geared to meet the goals and objectives of the camp for each camper on an individual basis. Participation is limited to residents of Wisconsin.

While safety and proper instruction are an important part of all camp activities, fun and enjoyment are the key elements that run throughout the total camp program. The program provides opportunities for children to grow in their interests live and interact successfully with others and foster self-confidence and independence. Typical camp activities include swimming, canoeing, sailing, paddle boating, inner tubing, kayaking, rowing, fishing, archery, crafts, nature programs, sports and games, overnight camping and cookouts, canoe trips, hiking trips, challenge courses and much more! All program activities are targeted to the child's abilities and are paced accordingly to provide each camper with a memorable experience at the Wisconsin Lions Camp.

For more information on who is eligible for out camping programs, please contact a member of the Reedsville Lions, call (754-4214) for information on the Summer Camp.

In addition, there are Retreat and Conference Center programs which provide an opportunity for all to experience the Wisconsin Lions Camp while benefiting our summer camp programs.
