Your actions have made things better in our lives.....

As life continues to get back to a new "normal" for our family, there are about a million things that need to be said...

First, we cannot thank everyone enough! Even if we spent the rest of our lives telling people "thank you", it cannot even begin to mirror the amount of gratitude we feel. To the 13 fire departments that spent the better part of that night in freezing cold temperatures, trying to save our home... each and every one of you holds a special place in our hearts. It was amazing to watch the cooperation and dedication that was shown that night. What you do is amazing. Now when we hear sirens, we say a little prayer for your safety.

To the many area churches that helped with monetary donations, blankets, food, clothing, and other necessities... we thank you tremendously as well! We don't know what we'd have done without all of your support and prayers. May God bless each and every one of you.

To the incredibly dedicated group of individuals who organized the benefit for our family, as well as all who donated your time, talents, or goods... thank you so much for being with us that night to show your support and love. It was such a huge, overwhelming success! Knowing that friends, family, and neighbors could give us that feeling that things were going to be ok again... that was more than we could have ever imagined. Thank you.

To every single individual, family, organization, or business that donated food, clothing, dishes, towels, money, or other items... the names go on and on forever... we cannot thank you enough! We wear your clothing, use your towels, cook with the dishes you gave us every day. Do not think for one minute that that kind of generosity can ever be forgotten. Thank you for helping us try to find some "normalcy" in a time when everything seemed crazy and uncertain.

To the students, staff, and families of the Reedsville School District... From the gift cards, to the baskets of gifts given to our children, to the home-made canned food items, to the money that was raised by the students... thank you just doesn't seem adequate enough for everything. The words of support that you provided helped to get us through that extremely difficult time. I am proud to be a part of such a wonderful group of people.

To the special "Santa" that helped make our Christmas a bit easier... those who offered gifts, decorations, our "new" Christmas tree, etc. Although at the time we struggled with doing the "extra holiday stuff", we are grateful that others were able to help us remember that those little things still did matter. We just had a bit tougher time seeing it then. Thank you for helping us to remember what Christmas is all about. (P.S.: Thank you to one special little boy for the window decoration. Santa was able to find our new house because of it.)

We could fill another 20 pages of names and organizations if we tried to name each and every person we wanted to thank! Please know that every single one of you who helped us in any way is so very much appreciated. We are so grateful for everything you have done for us to help us get back on our feet again. As the one-year anniversary of our fire approaches, know that you are all thought of with much love and appreciation.

Thank you for a new beginning.

Men Need to Make Time for their Health Too

Many men need to take time and start caring for their own health.

One way men can maintain health and prevent disease is to get regular screenings. Screenings are important because the earlier detected diseases are the most treatable.

I recommend the following screenings and age guidelines for men:

Body Mass Index. In order to sustain a healthy weight, men should have their body mass index checked at every visit or every few years depending on age. Men ages 18 to 39 should be checked every 3 to 5 years; men ages 40 to 49 every 2 to 3 years; and men ages 50-plus every 1 to 2 years.

Blood Pressure Readings. Men ages 18 or older should get their blood pressure checked at every visit or every year, or more often if he has high blood pressure or a history of it.

Cholesterol. Men ages 18 and older should have their cholesterol checked every 1-2 years, or more if they have elevated cholesterol levels.

Men should make use of **diabetes screenings** every year if they are high-risk. In addition, I recommend **colon and prostate cancer screenings** starting at age 50. If there is a first-degree relative (parent/sibling) with a history of colon or prostate cancers, screenings should start 10 years before the age that the family member was diagnosed.

Health maintenance not only includes regular screenings, but also self-exams. For example, I suggest men perform testicular self-exams to detect cancer in its earlier stages. They should look for hardening or swelling of a testicle and lumps on the scrotum. According to the American Cancer Society, men ages 20 to 54 are at highest risk for testicular cancer.

Another key component of men's health is prevention. This includes eating a balanced diet, exercising regularly, avoiding smoke, and knowing your body.

Since coronary heart disease is the leading killer in the United States, men should learn the key signs of a heart attack now before it's too late and seek emergency care at the first sign of any symptoms listed below. Early treatment can possibly prevent heart muscle damage.

According to the American Heart Association, heart attack symptoms include:

- Discomfort in the center of the chest that lasts a few minutes or goes away and returns. The chest may feel pressure, squeezing, fullness, or pain.
- Discomfort in the arms (one or both), back, neck, jaw or stomach.
- Shortness of breath with or without chest discomfort.
- Breaking out in a cold sweat.
- Lightheadedness.
- Nausea.

In general, men should openly discuss family medical history and current health problems with their health care provider to aid in disease prevention and overall health maintenance.

Friends of St. Patrick honor famous clown with the introduction of "The Clown Room"

Well known Grandma Clown, and her side-kick, clown Molly Putz, recently visited the Friends of St. Patrick Heritage House in Maple Grove, WI to view all Grandma Clown's memorabilia, which she had donated to the Friends of St. Patrick when she decided to retire from "clowning" in 2007. The Friends of St. Patrick, Inc. have created a special room in their Heritage House for Audrey (Burns) Orth, (The Irish Grandma Clown's) donations. The "Clown Room" holds all different shapes, sizes and kinds of clowns, previously displayed in The Orth's Diner, restaurant in New Holstein, WI. Audrey and her husband Ralph operated this diner from 1964-2000, when they retired Audrey compares herself to Brett Favre, when you speak to her about her retirement. She retired from clowning in 2007 but came out of retirement and continues to appear as, the Irish Grandma Clown, on special occasions. Orth is 86 years old and lives with her daughter and son-in-law, Pat & Ron Hass in Sheboygan Falls, WI.

Asking Audrey how she got involved in clowning, she said, "I think I was always a clown. When I graduated from Brillion High School in 1941, the caption under my year book picture read: THINK HOW OFTEN SHE BROUGHT SMILES WITH HER HAPPY IRISH WILES."

At the height of the Diner Clown's, she had clown suits, that she herself handmade, available for over 100 clowns, She arranged for all the clown appearances for over 40 years. "At one parade in Kiel, I had 100 Diner Clowns participate", said Grandma Clown. For many years she appeared in the Circus Parade in Milwaukee, walking the entire parade.

Molly Putz, Marian Skarvan, of Manitowoc, who had been a Diner Clown for years, and continues to clown around on her own, and with Grandma Clown, when needed, remembers that all the clown had a name to identify them. She still uses her clown name, Molly Putz, when she visits nursing homes and schools, in the area.

The St. Patrick Heritage House is open by appointment, to view the clown exhibit as well as any of the other items on display by calling (920) 732-3462, or (920) 754-4462.

Reedsville Garden Club

The Reedsville Garden Club has completed another successful year in the area. We hosted a Harvest Fall Dinner on October 14th to show appreciation for the people who donated time, talent and money to the group. The Reedsville Garden Club has achieved much during the 2009 year: we held several meetings to organize, sponsored a public information session, held a plant sale and brat/burger fry,

developed a budget for the club, placed bark and liner by the Historical Building, planted barrels for Street, completed the east end large bed, started a new bed on the west side of Reedsville, planted two beds by Glasow's home and Christel sign, planted in front of the high school and in the nature trail area, planted by the Laundromat, planted by the Reedsville Manor, and started a new bed on Manitowoc/Mill Street corner.

We watered and weeded all summer and visited the West of the Lake Garden in Manitowoc in July. We also had a craft table at a event at the Historical Building in Reedsville. Anyone wishing to join the Reedsville Garden Club should call 754-4224 or 754-4370. It is a working group who enjoy flowers and plants and spreading their natural beauty.
